

DATA SHEET

VeriSign® Identity Protection (VIP) Security Token

The VeriSign® Identity Protection (VIP) Security Token enables strong authentication with the VeriSign® Identity Protection Authentication Service through an easy-to-use and highly cost effective device that consumers can carry on a keychain. The VIP Security Token uses a time-based algorithm to generate a dynamic six-digit security code every 30 seconds. The VIP Security Token carries either a three or five year warranty, and can be customised with your corporate logo, branding, and custom colours to suit your business.

+ VIP Security Token Specifications

ISO Specification Support	ISO9000 • ISO14001 • Sony green label certificate
Onboard Security Algorithm	Time Based
Speed	OTP calculated in less than 1 second Can generate a password every 30 seconds
Dimensions	12 x 30 x 60 mm (H x W x L)
Weight	10 grams (battery included)
LCD	View area 22.5 x 7.0 mm • 8-character LCD
Operating Temperature Range	0° C to +45° C with 90% RH in non-condensing conditions
Storage Temperature	+10° C to +30° C with 85% RH in non-condensing conditions
Water Resistance Certificate	Splash proof tested (not yet certified)
Casing	Hard molded plastic (ABS) with printed logo
Key Storage OTP Security Algorithm	Static RAM of the processor
Memory Data Retention	Battery-powered onboard RAM • battery lifetime 5 years
Battery Life Expectancy	5 years, depending on number of OTP generations
Display for Battery Status	Yes
Memory Cell Rewrites	Unlimited; rewrite of RAM code only allowed after full reset
Security	Single chip approach without any external data bus
